Biotech experts
In 1994, Cosmoferm (now Evonik) succeeded in developing a technology, which enables the production of pure human skin-identical ceramides. Since this time, Evonik has offered a comprehensive portfolio of actives based on ceramide technology.

Pure skin care
Ceramides, a special class of sphingolipids, have been found to be key components in the outermost layer of the skin. They play an essential role in maintaining and structuring the lipid barrier.

Wide variety of applications
Benefits range from strengthening the skin from the stratum corneum to the subcutis, reinforcing the skin lipid barrier, improving skin moisturization, protecting from harmful external effects and counteracting dermal photoaging right through to prevention of hair loss.
20 successful years of evolution based on ceramide technology

**SPHINGONY®**
- Skin-identical sphingoid base
- Prevention of hair loss
- Improvement of scalp health

**SKINMIMICS®**
- Unique, high-tech ceramide complex tailored for mature skin
- Providing skin protection, prevention and regeneration
- Improvement of moisturization and skin elasticity

**SK-INFLUX®/SK-INFLUX® V**
- Skin identical lamellar system for enhanced lipid deposition
- Restoring of the lipid barrier
- Helping dry skin to recover

**Skin-identical ceramides**
- Sophisticated biotech process
- Made from biorenewables
- Versatile range of Ceramide classes

**SPHINGOKINE NP®**
- Short chain ceramide acting as multilayer skin activator
- Reducing skin sagging
- Skin plumping and densifying

**Phytosphingosine SLC**
- Unique designer sphingolipid
- Reducing the appearance of photodamaged skin and pore size
- Reinforces the dermal-epidermal junction

**SKINMIMICS®**
- Unique, high-tech ceramide complex tailored for mature skin
- Providing skin protection, prevention and regeneration
- Improvement of moisturization and skin elasticity

**SK-INFLUX®/SK-INFLUX® V**
- Skin identical lamellar system for enhanced lipid deposition
- Restoring of the lipid barrier
- Helping dry skin to recover

**Phytosphingosine**
- Skin identical sphingoid base
- Improves blemished skin
- Reduces the appearance of papules and pustules

**Ceramide III**
- High purity human skin-identical sphingolipid
- Strengthening of the skin barrier function
- Recovering of dry skin
